Professional Summary

Software Engineer passionate about using technology to drive social impact. Experienced in software development, digital transformation, and IT project management through internships and personal initiatives. Strong adaptability, problem-solving skills, and leadership experience, with a deep commitment to leveraging technology for community-driven solutions.

Work Experience

08/2025 – Present Dakar, Senegal	Software Engineer <i>Awa Africa (software development company)</i> - Developed end-to-end software solutions across multiple sectors, with a strong focus on InsurTech. - Built digital tools for all insurance stakeholders (clients, agents, back-office teams) to improve efficiency and service delivery. - Designed and implemented features that streamline operations, automate workflows, and enhance user experience. - Collaborated with cross-functional teams to deliver scalable, secure, and data-driven systems.
08/2024 – 08/2025 Dakar, Senegal	Software Engineer Intern <i>Proassur (Insurance Company)</i> - Leading the development of a chatbot that enables customers to quickly purchase insurance policies (automobile, travel, home, and health) through an automated and user-friendly process. - Streamlining business processes by integrating AI-driven automation to enhance efficiency and customer experience. - This project is also the focus of my final-year thesis: "Automation of Business Processes in the Insurance Sector."
05/2023 – 10/2023 Dakar, Senegal	Fullstack Web Developer <i>Wergu (HealthTech Startup)</i> - Developed a web application to help users find nearby open pharmacies in real-time. - Implemented a feature to search for medications by molecule or name and identify equivalent products. - Optimized user experience for accessing critical healthcare information quickly and efficiently.
06/2022 – 07/2022 Dakar, Senegal	Software Developer Intern <i>Wergu (HealthTech Startup)</i> Developed a mobile application enabling users to search and purchase over-the-counter pharmaceutical products.

Projects
